# CBSE | DEPARTMENT OF SKILL EDUCATION CURRICULUM FOR SESSION 2025-2026 INFORMATION TECHNOLOGY (SUB. CODE – 402) JOB ROLE: DOMESTIC DATA ENTRY OPERATOR CLASS X

# COURSE TITLE: DOMESTIC DATA ENTRY OPERATOR

Domestic Data Entry Operator in the IT-ITeS Industry is also known as Data Entry Operator. Individuals are responsible to provide daily work reports and work on a daily hour basis. The individual is responsible for electronic entry of data from the client side to the office site or viceversa. Individual tasks vary depending on the size and structure of the organization. This job requires the individual to have a thorough knowledge of various technology trends and processes as well as have updated knowledge about database management systems and IT initiatives. The individual should have fast and accurate typing/data encoding. This job involves working in a personal computer, and appropriate software to enter accurate data regarding different issues like retrieving data from a computer or to a computer

## **COURSE OBJECTIVES:**

In this course, students will be introduced to advanced concepts of digital documentation, spreadsheets, database management, and workplace safety, enhancing both technical and soft skills. The course aims to develop effective communication skills, including active listening, speaking, and presentation abilities, while fostering self-management through time management, goal setting, and stress management techniques. Students will gain proficiency in Information and Communication Technology (ICT), ensuring safe and ethical use of digital tools. The course also focuses on nurturing an entrepreneurial mindset, critical thinking, and innovation skills, along with a strong understanding of sustainable practices and environmental conservation. Learners will master advanced document creation, data analysis, and automation techniques using LibreOffice tools and develop competency in designing and managing databases. Emphasis is placed on maintaining a safe and secure work environment by understanding health, safety, and emergency protocols, thus preparing students for professional and personal growth in diverse environments.

## **LEARNING OUTCOMES:**

In this course, the students will be introduced to the advanced concepts of digital documentation, digital spreadsheet, database management and internet security. The objectives of this course are to :

- Develop effective verbal and non-verbal communication skills, active listening, speaking, and presentation skills. Understand the importance of feedback and improve interpersonal communication.
- Enhance self-awareness, self-regulation, and self-motivation. Learn time management, goal setting, and stress management techniques. Cultivate personal and professional growth mindsets.
- Understand the basics of Information and Communication Technology (ICT). Gain

402 - Information Technology - Class X

proficiency in using digital tools and platforms for communication and productivity. Learn safe, responsible, and ethical use of ICT resources.

- Develop an entrepreneurial mindset and understanding of business fundamentals. Learn problem-solving, critical thinking, and innovation techniques. Understand financial literacy and risk management in business.
- Understand the importance of sustainable practices and environmental conservation. Learn about the green economy and green jobs. Promote sustainable development and ecofriendly initiatives.
- Master advanced document creation, formatting, and management skills. Learn to use templates, styles, tables, and images effectively. Understand document collaboration and review features.
- Learn advanced data analysis using Scenarios and Goal Seek, automate tasks with macros, and manage linked data across spreadsheets. Gain skills in securely sharing and reviewing spreadsheets for effective collaboration and feedback.
- Learn to design, create, and manage databases. Understand data querying, reporting, and relational database concepts. Develop skills in creating forms, reports, and managing data integrity.
- Understand workplace safety, health, and security protocols. Learn hazard identification, risk assessment, and emergency response planning. Promote a culture of health, safety, and well-being at the workplace.

These objectives are designed to provide comprehensive skills that enhance employability, personal development, and workplace readiness.

## SALIENT FEATURES:

This course equips students with essential skills for a Data Entry Operator role by focusing on advanced digital documentation, spreadsheet management, and database handling using LibreOffice tools. It enhances accuracy, speed, and data management capabilities while improving communication and ICT skills for efficient workplace interaction. The course promotes responsible digital practices, problem-solving, and critical thinking, ensuring readiness for datacentric tasks. Additionally, it emphasizes workplace safety, teaching health, safety, and emergency management protocols, essential for maintaining a secure and productive work environment.

#### SCHEME OF UNITS

#### Total Marks: 100 (Theory-50+Practical-50)

This course is a planned sequence of instructions consisting of units meant for developing employability and vocational competencies of students of Class X opting for skill subject along with other subjects.

The unit-wise distribution of hours and marks for class X is as follows:

# CBSE | DEPARTMENT OF SKILL EDUCATION CURRICULUM FOR SESSION 2025-2026

# **DETAILED CURRICULUM/ TOPICS:**

# Part-A: EMPLOYABILITY SKILLS

| S. No. | Units   | Duration in Hours |
|--------|---|-------------------|
| 1.     | Unit 1: Communication Skills-II                           | 10                |
| 2.     | Unit 2: Self-management Skills-II                         | 10                |
| 3.     | Unit 3: Information and Communication Technology Skills-I | 10                |
| 4.     | Unit 4: Entrepreneurial Skills-II                         | 15                |
| 5.     | Unit 5: Green Skills-II                                   | 05                |
|        | TOTAL   | 50                |

# <u>Note:</u> The detailed curriculum/ topics to be covered under Part A: Employability Skills can be downloaded from CBSE website.

# Part-B – SUBJECT SPECIFIC SKILLS

- Unit 1: Digital Documentation (Advanced)
- Unit 2: Electronic Spreadsheet (Advanced)
- Unit 3: Database Management System
- Unit 4: Web Applications and Security

# Unit 1: Digital Documentation (Advanced) using LibreOffice Writer

| SUB UNIT                                | LEARNING<br>OUTCOMES   | THEORY   | PRACTICAL   |
|---|--|--|---|
| Chapter 1:<br>Introduction<br>To Styles | Learn to create,<br>update, and<br>apply various<br>styles in Libre<br>Office Writer for<br>effective and<br>consistent<br>document<br>formatting. | <ul> <li>Styles/ categories in<br/>Writer</li> <li>Page</li> <li>Paragraph</li> <li>Character</li> <li>Frame</li> <li>List</li> <li>Table</li> <li>Styles and Formatting</li> <li>Fill Format</li> <li>Creating a new style</li> <li>From Selection<br/>method</li> <li>Drag and Drop<br/>method</li> <li>Updating a new style</li> <li>Load style from<br/>template or document.</li> <li>Applying styles.</li> </ul> | <ul> <li>List Style Categories:<br/>Open the Styles and<br/>Formatting window, list<br/>available style<br/>categories, and select<br/>one style from each.</li> <li>Use Fill Format: Apply a<br/>style to multiple areas of<br/>your document quickly<br/>using the Fill Format tool.</li> <li>Create and Update a<br/>New Style: Create a new<br/>style from selected text<br/>and update it by<br/>modifying its attributes.</li> <li>Load a Style from a<br/>Template or Document:<br/>Import and apply a style<br/>from a template or<br/>another document to<br/>your current work.</li> <li>Create a New Style<br/>Using Drag-and-Drop:</li> </ul> |

| SUB UNIT  | LEARNING   | THEORY  | PRACTICAL  |
|---|--|---|--|
|   | OUTCOMES   |   | Create a new style by<br>dragging and dropping<br>formatted text into the<br>Styles and Formatting<br>panel.   |
| Chapter 2:<br>Working with<br>Images            | Able to insert,<br>modify, and<br>position images<br>and drawing<br>objects in a<br>document, using<br>various methods<br>and options for<br>effective<br>document layout<br>and formatting. | <ul> <li>Inserting an Image in a<br/>Document</li> <li>Insert Image<br/>Option</li> <li>Drag and Drop<br/>option</li> <li>Copy and Paste<br/>method</li> <li>Inserting an image<br/>by linking</li> <li>Options to modify<br/>image using image<br/>toolbar, resize, crop<br/>and delete an image.</li> <li>Drawing Objects</li> <li>Creating drawing<br/>objects</li> <li>Setting or changing its<br/>properties.</li> <li>Resizing and grouping<br/>drawing objects.</li> <li>Positioning image in<br/>the text.</li> <li>Arrangement</li> <li>Anchoring</li> <li>Alignment</li> <li>Text Wrapping</li> </ul> | <ul> <li>Insert an Image: Insert<br/>an image into a<br/>document using options<br/>such as Insert Image,<br/>Drag and Drop, Copy<br/>and Paste, and linking.</li> <li>Modify an Image: Use<br/>the image toolbar to<br/>modify an image by<br/>resizing, cropping, and<br/>deleting it.</li> <li>Create Drawing<br/>Objects: Create various<br/>drawing objects within<br/>your document.</li> <li>Set or Change Drawing<br/>Object Properties:<br/>Adjust the properties of<br/>drawing objects,<br/>including color, line style,<br/>and fill.</li> <li>Resize and Group<br/>Drawing Objects:<br/>Resize individual drawing<br/>objects and group<br/>multiple objects together<br/>for better document<br/>organization.</li> <li>Position the Image in<br/>the Text: Adjust the<br/>image's position in the<br/>text using arrangement,<br/>anchoring, alignment,<br/>and text wrapping<br/>options.</li> </ul> |
| Chapter 3:<br>Advanced<br>Features of<br>Writer | Acquire skills in<br>creating,<br>customizing,<br>and managing a<br>Table of<br>Contents, using<br>and editing<br>templates, and<br>tracking and<br>reviewing<br>changes in                  | <ul> <li>Table of contents</li> <li>Hierarchy of headings</li> <li>Creating a Table of<br/>Content (ToC)</li> <li>Customization of<br/>Table of<br/>Contents(ToC)</li> <li>Maintaining a Table of<br/>Contents(ToC)</li> </ul>  | <ul> <li>Create a Table of<br/>Contents (ToC):<br/>Generate and customize<br/>a Table of Contents in a<br/>document.</li> <li>Maintain a Table of<br/>Contents: Update or<br/>delete the Table of<br/>Contents</li> <li>Use Templates: Create,</li> </ul>  |

| SUB UNIT |                           | THEORY   | PRACTICAL   |
|----------|---------------------------|--|---|
|          | documents<br>effectively. | <ul> <li>Updating ToC</li> <li>Deleting ToC</li> <li>Using templates</li> <li>Creating a Template</li> <li>Using In-built/Saved<br/>Templates</li> <li>Using Online<br/>Templates</li> <li>Importing a Template</li> <li>Editing a Template</li> <li>Editing a Template</li> <li>Moving a Template</li> <li>Exporting a Template</li> <li>Applying Templates to<br/>a Blank Document</li> <li>Track Changes<br/>Feature</li> <li>Preparing a Document<br/>for Review</li> <li>Recording Changes</li> <li>Accepting Changes</li> <li>Adding Comments</li> <li>Deleting Comments</li> <li>Comparing Documents</li> </ul> | <ul> <li>import, and apply<br/>templates to a blank<br/>document, using in-built,<br/>saved, or online<br/>templates.</li> <li>Edit a Template: Modify,<br/>move, and export an<br/>existing template.</li> <li>Track Changes: Prepare<br/>a document for review by<br/>recording, accepting, or<br/>rejecting changes, and<br/>manage comments by<br/>adding or deleting them.</li> <li>Compare Documents:<br/>Compare two versions of<br/>a document to identify<br/>and review differences.</li> </ul> |

# Unit 2: Electronic Spreadsheet (Advanced) using LibreOffice Calc

| SUB<br>UNIT   | LEARNING<br>OUTCOMES  | THEORY  | PRACTICAL  |
|---|---|---|--|
| Chapter<br>4:<br>Analyse<br>data<br>using<br>scenario<br>s and<br>goal seek | Learn skills in<br>consolidating<br>data, using<br>groups and<br>subtotals,<br>performing what-<br>if analysis and<br>scenarios, and<br>utilizing the Goal<br>Seek tool for<br>decision-making. | <ul> <li>Consolidating<br/>Data</li> <li>Groups and<br/>Subtotals</li> <li>What-if<br/>Scenarios</li> <li>What-if<br/>Analysis Tool</li> <li>Goal Seek</li> </ul> | <ul> <li>Use Consolidating Data:<br/>Aggregate data from multiple<br/>sources into a single summary.</li> <li>Create Subtotals: Apply subtotals<br/>to data groups to summarize and<br/>analyze information.</li> <li>Use "What-If" Scenarios: Create<br/>and analyze different scenarios to<br/>forecast outcomes based on<br/>varying inputs.</li> <li>Use "What-If" Tools: Use tools<br/>like Scenario Manager for detailed<br/>what-if analyses.</li> <li>Use Goal Seek and Solver: Use<br/>Goal Seek to find specific input<br/>values needed to achieve a</li> </ul> |

| SUB<br>UNIT  | LEARNING<br>OUTCOMES  | THEORY  | PRACTICAL   |
|--|---|---|---|
|  |   |   | desired result, and apply Solver for more complex problems.   |
| Chapter<br>5:<br>Using<br>Macros in<br>Spreadsh<br>eet | Develop skills in<br>recording,<br>running,<br>creating, and<br>organizing<br>macros, and<br>using them as<br>functions for<br>document<br>automation.                      | <ul> <li>Recording a<br/>Macro</li> <li>Running a<br/>Macro</li> <li>Creating and<br/>Organising a<br/>Simple Macro</li> <li>Macro as a<br/>Function</li> </ul>   | <ul> <li>Demonstrate the Use of a Macro<br/>Recorder: Record a macro to<br/>automate repetitive tasks.</li> <li>Create a Simple Macro: Develop<br/>a basic macro to perform a<br/>specific function.</li> <li>Use a Macro: Execute an existing<br/>macro to automate tasks in a<br/>document.</li> <li>Pass Arguments to a Macro:<br/>Provide arguments to a macro to<br/>customize its behavior.</li> <li>Pass the Arguments as Values:<br/>Supply values as arguments to a<br/>macro for dynamic operation.</li> <li>Write Macros as Built-in<br/>Functions: Create macros that<br/>function similarly to built-in<br/>functions for enhanced<br/>functionality.</li> <li>Access Cells Directly: Write<br/>macros to directly manipulate cell<br/>data in spreadsheets.</li> <li>Sort Columns Using a Macro:<br/>Develop and use a macro to sort<br/>columns in a spreadsheet.</li> </ul> |
| Chapter<br>6:<br>Linking<br>Spreadsh<br>eet Data       | Learn to set up<br>multiple sheets,<br>create<br>references and<br>hyperlinks within<br>and across<br>documents, and<br>link to external<br>and registered<br>data sources. | <ul> <li>Setting up<br/>multiple sheets.</li> <li>Creating<br/>reference to other<br/>sheets by using<br/>keyboard and<br/>mouse.</li> <li>Creating<br/>reference to<br/>another document<br/>by using keyboard<br/>and mouse.</li> <li>Hyperlinks to<br/>the Sheet</li> <li>Relative and<br/>Absolute<br/>Hyperlinks</li> <li>Creating<br/>Hyperlinks</li> </ul> | <ul> <li>Setup Multiple Sheets: Insert and organize new sheets within a workbook.</li> <li>Create References to Other Sheets: Use keyboard and mouse to create references between different sheets in a workbook.</li> <li>Create References to Other Documents: Use keyboard and mouse to link data from one document to another.</li> <li>Create, Edit, and Remove Hyperlinks: Add, modify, and delete hyperlinks to sheets within a workbook.</li> <li>Link to External Data: Connect and import data from external sources into your document.</li> <li>Link to Registered Data Sources: Establish links to registered data sources for data integration.</li> </ul>  |

# **ORGANISATION OF FIELD VISITS:**

In a year, at least 3 field visits/educational tours should be organised for the students to expose them to the activities in the workplace.

Visit a data entry centre and observe the following: Location, Site, Office building, Computer Systems, Tools and Equipment, Printer, Scanner. During the visit, students should obtain the following information from the owner or the supervisor of the Data Centre:

- 1. Data Entry Centre.
- 2. Computer Infrastructure.
- 3. Sitting Posture of data entry operators.
- 4. Assistive technology.
- 5. Man power engaged.
- 6. Total expenditure of Data Entry Centre.
- 7. Total annual income.
- 8. Profit/Loss (Annual).
- 9. Any other information.

# LIST OF EQUIPMENT/ MATERIALS:

The list given below is suggestive and an exhaustive list should be compiled from the feedback given by various by the teachers teaching the subject. Only basic tools, equipment and accessories should be procured by the Institution so that the routine tasks can be performed by the students regularly for practice and acquiring adequate practical experience.

| S. No. | ITEM NAME, DESCRIPTION & SPECIFICATION  | QUANTITY |
|--------|---|----------|
| Α      | HARDWARE  |          |
| 1.     | Computer with latest configuration or minimum Pentium Processor<br>with minimum 2GB RAM, 512 GB HDD, 17" LED Monitor, NIC Card<br>3 | 15       |
| 2      | Laser Printer - Black   | 01       |
| 3      | Inkiet Printers (Colour and Black & White)  | 01       |
| 4      | Scanner   | 01       |
| 5.     | Online UPS 5 KVA  | 01       |
| 6.     | 16 Port Switches  | 01       |
| 7.     | Air Conditioner 1.5 tonne   | 02       |
| 8.     | Telephone line (For Internet)   | 01       |
| 9.     | Fire extinguisher   | 01       |
| В      | SOFTWARE  |          |
| 1.     | Operating System Linux and Windows  |          |
| 2.     | Anti-Virus Latest version   |          |
| 3.     | Productivity Suite, Example – Open Office, etc.   |          |
| С      | FURNITURE   |          |
| 1.     | Class room chairs and desks   | 25       |
| 2.     | Computer Tables   | 15       |
| 3.     | Straight back revolving & adjustable chairs (Computer Chairs)   | 15       |
| 4.     | Printer Tables  | 02       |
| 5.     | Trainers Table  | 01       |
| 6.     | Trainers Chair  | 01       |
| 7.     | Steel cupboards drawer type   | 02       |
| 8.     | Cabinet with drawer   | 01       |
| 9.     | Steel Almira - big size   | 01       |
| 10.    | Steel Almira- small size  | 01       |

# TEACHER'S/ TRAINER'S QUALIFICATIONS:

Qualification and other requirements for appointment of teachers/trainers for teaching this subject, on contractual basis should be decided by the State/ UT. The suggestive qualifications and minimum competencies for the teacher should be as follows:

| Qualification                                | Minimum Competencies                       | Age Limit               |
|--|--|-------------------------|
| Diploma in Computer Science/                 | The candidate should have                  | • 18-37 years           |
| Information Technology                       | a minimum of 1 year of work                | (as on Jan. 01          |
| OR   | experience in the same job                 | (year))                 |
| Bachelor Degree in Computer                  | role.                                      | <ul> <li>Age</li> </ul> |
| Application/ Science/ Information            |  | provided as per         |
| Technology (BCA, B. Sc. Computer             | <ul> <li>S/He should be able to</li> </ul> | Govt. rules             |
| Science/ Information Technology)             | communicate in English and                 |                         |
| OR   | local language.                            |                         |
| Graduate with PGDCA OR DOEACC A              |  |                         |
| Level Certificate.                           | S/He should have                           |                         |
| The suggested qualification is the           | knowledge of equipment,                    |                         |
| minimum                                      | UUIS, Material, Salety, Health             |                         |
| criteria. However higher qualifications will |  |                         |
| also be acceptable.                          |  |                         |

Teachers/Trainers form the backbone of Skill (Vocational) Education being imparted as an integral part of Rashtriya Madhyamik Shiksha *Abhiyan* (RMSA). They are directly involved in teaching of Skill (vocational) subjects and also serve as a link between the industry and the schools for arranging industry visits, On-the-Job Training (OJT) and placement.

These guidelines have been prepared with an aim to help and guide the States in engaging quality Teachers/Trainers in the schools. Various parameters that need to be looked into while engaging the Vocational Teachers/Trainers are mode and procedure of selection of Teachers/ Trainers, Educational Qualifications, Industry Experience and Certification/ Accreditation.

The State may engage Teachers/Trainers in schools approved under the component of scheme of Vocationalisation of Secondary and Higher Secondary Education under RMSA in following ways:

(i) Directly as per the prescribed qualifications and industry experience suggested by the PSS Central Institute of Vocational Education (PSSCIVE), NCERT or the respective Sector Skill Council (SSC).

## OR

(ii) Through accredited Vocational Training Providers accredited under the National Quality Assurance Framework (NQAF\*) approved by the National Skill Qualification Committee on 21.07.2016. If the State is engaging Vocational Teachers/Trainers through the Vocational Training Provider (VTP), it should ensure that VTP should have been accredited at NQAF Level 2 or higher.

\* The National Quality Assurance Framework (NQAF) provides the benchmarks or quality criteria which the different organizations involved in education and training must meet in order to be accredited by competent bodies to provide government- funded education and training/skills activities. This is applicable to all organizations offering NSQF-compliant qualifications.

The educational qualifications required for being a Teacher/Trainer for a particular job role are clearly mentioned in the curriculum for the particular NSQF compliant job role. The State should ensure that teachers/ trainers deployed in the schools have relevant technical competencies for the NSQF qualification being delivered. Teachers/Trainers preferably should be certified by the concerned Sector Skill Council for the particular Qualification Pack/Job role which S/he will be teaching. Copies of relevant certificates and/or record of experience of the teacher/trainer in the industry should be kept as record.

To ensure the quality of the Teachers/Trainers, the State should ensure that a standardized procedure for selection of (Vocational) Teachers/Trainers is followed. The selection procedure should consist of the following:

- (i) Written test for the technical/domain specific knowledge related to the sector;
- (ii) Interview for assessing the knowledge, interests and aptitude of trainer through a panel of experts from the field and state representatives; and
- (iii) Practical test/mock test in classroom/workshop/laboratory.

In case of appointment through VTPs, the selection may be done based on the above procedure by a committee having representatives of both the State Government and the VTP.

The State should ensure that the Teachers/ Trainers who are recruited should undergo induction training of 20 days for understanding the scheme, NSQF framework and Vocational Pedagogy before being deployed in the schools.

The State should ensure that the existing trainers undergo in-service training of 5 days every year to make them aware of the relevant and new techniques/approaches in their sector and understand the latest trends and policy reforms in vocational education.

The Head Master/Principal of the school where the scheme is being implemented should facilitate and ensure that the (Vocational) Teachers/Trainers:

- Prepare session plans and deliver sessions which have a clear and relevant purpose and which engage the students;
- Deliver education and training activities to students, based on the curriculum to achieve the learning outcomes;
- Make effective use of learning aids and ICT tools during the classroom sessions;
- Engage students in learning activities, which include a mix of different methodologies, such as project based work, team work, practical and simulation based learning experiences;
- Work with the institution's management to organise skill demonstrations, site visits, on job trainings, and presentations for students in cooperation with industry, enterprises and other workplaces;
- Identify the weaknesses of students and assist them in up-gradation of competency;
- Cater to different learning styles and level of ability of students;
- Assess the learning needs and abilities, when working with students with different abilities
- Identify any additional support the student may need and help to make special arrangements for that support;
- Provide placement assistance

Assessment and evaluation of (Vocational) Teachers/Trainers is very critical for making them aware of their performance and for suggesting corrective actions. The States/UTs should ensure that the performance of the (Vocational) Teachers/Trainers is appraised annually. Performance

based appraisal in relation to certain pre-established criteria and objectives should be done periodically to ensure the quality of the (Vocational) Teachers/Trainers.

Following parameters may be considered during the appraisal process:

- Participation in guidance and counseling activities conducted at Institutional, District and State level;
- Adoption of innovative teaching and training methods;
- Improvement in result of vocational students of Class X or Class XII;
- Continuous up-gradation of knowledge and skills related to the vocational pedagogy, communication skills and vocational subject;
- Membership of professional society at District, State, Regional, National and International level;
- Development of teaching-learning materials in the subject area;
- Efforts made in developing linkages with the Industry/Establishments;
- Efforts made towards involving the local community in Vocational Education
- Publication of papers in National and International Journals;
- Organisation of activities for promotion of vocational subjects;
- Involvement in placement of students/student support services.

# **CAREER OPPORTUNITIES:**

The job of a data entry operator/ analyst is to work for a wide variety of public and private organisations. A data entry operator/analyst is responsible to input data in a quick and efficient manner, create data storage and should possess knowledge about the methods for recovering useful data when needed, organizing and analyzing data in a clear and effective way, navigating computer and database systems proficiently, editing and preparing reports based on the information they have put into the system. They also help the organisations to keep up with recording and analyzing the abundance of information received on a daily basis.

# Some of the top sectors that require a data entry operator/analyst are listed below:

- Banks and Public Sector
- Marketing Companies
- Accounting Companies
- Human Resources
- Corporate Businesses
- MNCs
- Study Centers
- Schools and Universities
- Hospitals or Healthcare Service Providers
- Insurance Firms
- Small-scale Businesses

#### VERTICAL MOBILITY

- Students can pursue Polytechnic/Diploma/Certificate courses in IT fields.
- Can work as DEO
- · Data Entry/Analysis work from home for different companies
