

S.D PUBLIC SCHOOL				
BU BLOCK PITAMPURA				
Academic Planner -Art and craft Session (2026-27)				
CLASS III				
Month	Days/Week	Activity Name (Page No.)	Pg No.	Learning Outcome
April	24	Elements of Art	5	Will be able to identify and discuss the basic elements of art (line, shape, color, form, space, texture, value).
		Colour the Beats	28	Will be able to practice color recognition and application, potentially exploring rhythm through color patterns.
		Flowers in the Garden	24	Will develop observation skills, use various coloring or drawing techniques, and express creativity inspired by nature.
May	6	Draw Little Duckling	30	Will enhance fine motor skills, practice drawing basic shapes, and follow step-by-step instructions.
		Colour Zones	5	Will learn about color theory, color mixing, and applying colors within defined areas.
June		I know Colours	6	Will be able to recognize and name primary and secondary colors and understand how they are made.
		Shading It Right!	7	Will be able to explore different shading techniques to create depth and form in their drawings.
		Draw like Picasso	31	Will be introduced to an influential artist and experiment with expressive or abstract drawing styles.
		Below the Waves	11	Will be able to use imagination to depict an underwater scene, possibly focusing on fluid lines and cool colors.
July	26	3D Shark	43	develop spatial reasoning and fine motor skills by creating a three-dimensional form.
		Crawly Caterpillar	25	Will be able to practice drawing or constructing repetitive forms and observe natural patterns.
		Build a Dino	36	Will engage in constructive play, using various materials to build a recognizable form, enhancing problem-solving skills.
		Monsoon: Textured Tree	21	Will be able to experiment with creating textures using different materials or techniques to represent a tree.
		Wish-Fulfilling Tree	14	Will be able to use imagination and symbolic representation to create a personal piece of art.
		Shading Sparrow	14	Will be able to apply shading techniques to create a more realistic depiction of an animal, focusing on form and light.
August	22	3D Pigeon	29	Will develop spatial awareness and fine motor skills by constructing a three-dimensional bird.
		Independence Day: Warli Art	26	Will learn about a traditional art form, understand its cultural significance, and create art inspired by it.
		Stick Figures	19	Will grasp basic human form and movement, improving fundamental drawing skills.
		Rakhi: Weave a Basket	31	Will develop fine motor skills, learn basic weaving techniques, and understand a cultural craft.
Sept.	24	Yarn Bloom	13	Will practice manipulating yarn, developing fine motor skills and creating a decorative item.
		Ganesh Chaturthi: Madhubani Art	40	Will learn about a traditional Indian art style, its cultural context, and practice intricate patterns.
		Textured Village	47	Will explore creating various textures to depict different elements of a village scene.
		Meet the Matryoshkas	8	Will learn about nesting dolls, potentially exploring symmetry, pattern, and cultural motifs.
		Fold a Whale!	38	Will develop fine motor skills and spatial reasoning through origami or paper folding techniques.
October	20	Dussehra/Diwali: Light it Up!	27	Will create art related to cultural festivals, possibly incorporating elements of light and celebration.

		Silhouette Sunset	34	Will explore color blending, composition, and creating contrasting shapes.		
		Mosaic Art	12	Will learn about tessellation, pattern, and arranging small pieces to create a larger image.		
		Paper Panda Mosaic	48	Will apply mosaic techniques using paper, focusing on shape and color arrangement.		
Nov.	21	Children's Day: Sketch a Penguin	18	Will practice observational drawing or following instructions to sketch an animal.		
		Cuppy Crab	33	Will be able to use common objects to create art, fostering creativity and resourcefulness.		
		Everyday Beauty - Still Life	12	Will be able to practice observational drawing, composition, and understanding light and shadow.		
		Corn on the Cob	19	Will be able to focus on texture, form, and color in representing a familiar object.		
		Christmas: It's Snowing	10	Will be able to create winter-themed art, potentially exploring texture, movement, and cool color palettes.		
Dec.	25	The Dark Castle	29	Will be able to use imagination to create an atmospheric scene, possibly exploring dramatic lighting or architectural elements.		
		Starry Night Watcher	43	Will be able to create a celestial scene, potentially inspired by famous artworks or focusing on light effects.		
		3D Star	53	Will be able to develop spatial reasoning and construction skills by building a three-dimensional star.		
		Republic Day: Eye-deas from Waste	38	Will engage in upcycling, using recycled materials to create art, promoting environmental awareness and creativity.		
Jan.	17	Paper Mask	50	Will be able to design and construct a wearable art piece, exploring facial features and decoration.		
		Yoga for Health	36	While primarily a physical activity, an art-related outcome might involve illustrating yoga poses or creating serene imagery.		
		Shading Body Parts	51, 52	Will be able to apply shading techniques to depict the human form, focusing on anatomy and form.		
Feb.	24	Keith Style Painting	41	Will be able to learn about a specific artist's style and apply its characteristics (bold lines, simplified forms, movement) in their own work.		
		Step by Step OP Art	34	Will be able to learn about optical art, focusing on creating illusions of movement or depth through patterns and lines.		
		Feather It Up	45	Will be able to explore the texture and form of feathers, possibly using different drawing or craft techniques.		
		Leaf Crown	45	Will be able to create a nature-inspired craft, developing fine motor skills and an appreciation for natural materials.		
March		Annual Examination
